

THEORY OF CHANGE

CHIRON COMMUNITY GIVING FOUNDATION provides funding that increases access to programs and services for the most vulnerable residents of St. Louis City and St. Louis County.

VISION
We envision communities that are healthy, safe, and engaging for all people.

MISSION
To promote effective collaboration that transforms communities and life for the people within them.

PARTNERS

- The most vulnerable residents of St. Louis, MO.
- Organizations providing access to mental health care, basic needs, or education and training.

STRATEGIES

INCREASE ACCESS

- Promote policies, practices, and technology that increase affordability and availability of services.
- Support place-based programs, services and strategies.
- Improve screening for and awareness of opportunities.
- Advocate for improved array of programs/ services by tracking and publicly sharing data on the needs of St. Louis' most vulnerable residents.

INCREASE CAPACITY

- Listen, build trust, and support organizational growth and development over the long term.
- Encourage collaboration between community-based organizations and established providers.
- Fund operating support following organization's successful project implementation.

INCREASE QUALITY

- Provide support to front-line staff and organizational leaders.
- Fund projects that implement effective person-centered, culturally-responsive, and trauma-informed practices.

OUTCOMES

- More of St. Louis' most vulnerable residents receive access to necessary programs or services.
- CCGF partner organizations increase their sustainability.
- Staff and leaders improve service delivery through development and use of new skills and best practices.
- Staff and leaders supported through self-care activities.

ULTIMATE IMPACT

CCGF operates on the belief that when the most vulnerable individuals in a community are respected and supported in their growth and development, those individuals' lives will stabilize. In turn, communities will be strengthened, offering a better quality of life for all in the present and the future.
